Its importance has been described one hundred times and two hundred times in Quran Ahadees respectively. Muslim community has always remained critical for its protection. 1200 companions of Holy Prophet (PBUH) have sacrificed their lives for it. Entire building of a religion is based on it. The secret of a unity of Muslims also lies in it. Speakers said that they will not bear any amendment in the law of blasphemy. Every conspiracy will be dealt strongly in the country that was established on the name of Islam. Law of blasphemy is a protector of the honor of all the prophets. Qadianis are making baseless propoganda against Islam and Muslims on their tv channels. They are deceiving worldwide community to spread their false teachings through communication and super power technology. **(Daily Express, 28th June 2015)**
