Ever Merciful

Salutations To Allah the Almighty and the Holy Prophet (P B U H) and his Companions.

From past some days, since the Qadiani spokesperson made an announcement that the Qadianis are also becoming part of the Tiger Force so in return there are many things that are floating. First thing that I would like to say is that this Tiger Force is the force of the Pakistanis, not the Force of the Muslims. The Non-Muslims are also part of this Force and are still becoming part of this. Secondly the most important thing is that do we have any details on the basis Of which we can inform the Government that these are the ones who want to preach by becoming a part of this Force, and they are the ones who want to convert the relief work for spreading their message. If there are any such names, details than it must be provided, that should be given to the government. Third and the most important thing is that this is the Force of Pakistanis.

From the very first day I have been saying that our Khatm e Nabuat movements, the organisation working for the belief of Khatm e Nabuat they should not be politicised. They should stay away from politics, they should stay away from politics. Because the safeguard of the belief of Khatm e Nabuat is the responsibility of every Muslim, but unfortunately no one listens to our opinion. General public listens to us but not the key position holders, however this is not the time to complaint. Now the thing that I want to say is very important that this force is being formed by the Government. In the Past it was Nawaz Sharif's Government, today it is Imran KHAN's and we do not know about the future. This force will carry out relief work from the money of the Pakistanis and the Qadianis are limited in Pakistan. The ones that are donating millions in this relief fund they are all Muslims. So should we stop our youth from becoming part of this force so that everybody gets a chance to do whatever he desires in one way or the other. Or our youth should become part of this relief work and should play their role in serving the Humanity. I have the opinion that our youth should become part of this, till 15th April its membership is open. So become a member of this and play your full part in serving the humanity. And if someone is found using this relief work for its preaching than he should let us know along with the local authorities supervising this task so that they can be stopped there and than.

Similarly, it is the responsibility of the Clerics and the Imams that when this force is formed, they should also keep an eye that if someone is using this force to change someone's belief, or their should be any kind of attack on anyone's belief. Specially the belief of the Muslims the belief of Khatm e Nabuat no one should play his tricks against it while being part of this force. This is my request to all of you to step out, get yourself registered specially the youth. There is no Political difference in this - By the Grace of Allah Jamaat e Islami Pakistan is currently at the fore front of serving the humanity, the Akhuat brothers are leading as well in every field. Similarly the Volunteers of Jamiat Ulame Islam, Pakistan Ulema Council, everyone is doing something in their own capacity, but because this is an official force from the Government on an official level, the government to which we pay our tax, the government that runs on our taxes. This government does not belong to a particular community or a group of people. It is our responsibility to make the government realise the best use of the money that we give through our taxes and also become a part of this so that no one could use this to fulfill their own desires. May Allah the Almighty allow all of us to serve the religion of Islam, to serve Pakistan.
